To Whom It May Concern,

DSA has a long standing professional relationship with Jasmine Engineering, Inc. Over the years we have worked with Jasmine Engineering on a variety of educational projects.

The personnel at Jasmine Engineering have demonstrated their commitment to the team concept by encouraging open communication between all team members. They effectively address the specific requirements of the project, while insuring the needs of the Owner.

During all phases of the project they are conscientious and professional, which fosters a true teamwork attitude amongst the Owner, Contractor and Design Team. This consistently results in successful projects which meet the Owner's needs, on-time and in budget.

We look forward to working with Jasmine Engineering, Inc. on future projects.

Sincerely,

Tony Scarnato
Vice-President
DSA, Inc.
