To Whom It May Concern:

It has been our pleasure to work with Jasmine Engineering at Harlandale Independent School District in their capacity as the Commissioning Representative for the District. We have found them to be very knowledgeable and professional in their position for the District.

We have no hesitation in recommending their firm for consideration in a similar capacity for San Antonio Independent School District. We would look forward to working with Jasmine Engineering again in the future.

Very truly,

Craig Noonan, AIA
