Re: Letter Of Reference
Jasime Engineering, Inc.
Participation in Center Capital Improvement Projects

TO WHOM IT MAY CONCERN

It is a distinct honor and privilege to provide this Letter Of Reference on behalf Jasmine Azima, P.E. of Jasmine Engineering, Inc., for the excellent work that her Company has provided the Center with the Center's various capital improvement projects that have been undertaken over the past several years.

The vision and professional expertise that Jasmine Engineering, Inc. has brought to the project table, together with the close relationship they have maintained with the contractors and architects to manage and oversee all of the various elements and details of the Center's various construction projects have contributed immeasurably to the successful completion, in a timely and cost efficient manner, of all of those projects.

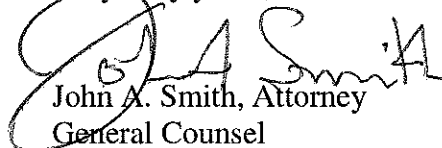

Jasmine Engineering, Inc.'s expertise in the accomplishment of Total Building Commissioning and Project Management places them far above their peers.

Their attention to documentation details and oversight made my job, as General Counsel to the Center, significantly easier in ensuring that the interests of the Center were fully protected in the project development phase and the management of construction accomplishment.

I look forward to the opportunity to work with their Company in the Center's future endeavors in construction projects.

As necessary, you may contact me further at 210.240.7736

Very truly yours,

John A. Smith, Attorney
General Counsel
