Subject: Letter of Recommendation
New Headquarters Building (Global HQ)
Kinetic Concepts San Antonio

To Whom It May Concern:

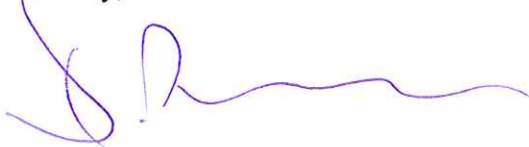

I am delighted to recommend Jasmine Engineering as a firm of both integrity and results.

In 2012 Kinetic Concepts (KCI) relocated its longstanding corporate tower to a new, more modern Global Headquarter (HQ) located here in San Antonio. Jasmine Engineering was instrumental in the completion of the HQ build as the specialist commissioning consultants for the LEED requirements of the project.

Jasmine Engineering guided the selection of heating, ventilation, and air conditioning systems, refrigeration systems, lighting controls, and hot water systems for our new building. Their recommendations were budget conscious, dynamic, and enhanced our world-class space. The professionalism displayed by their team contributed to the completion of HQ on time and under budget.

We can recommend without hesitation Jasmine Engineering as a collaborative and dedicated business partner and a valued contact for future projects.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Duncan Vincent', with a long, horizontal flourish extending to the right.

Duncan Vincent
Senior Director Global Facilities, Real Estate & Security
