To Whom It May Concern:

As the architects for the renovation of Kingsborough Middle School for the Harlandale Independent School District, we have worked in partnership with Jasmine Construction Management to successfully complete this project on time and under budget.

Their management team displayed professionalism and their experience in construction, scheduling, and their insight to Commissioning requirements for HVAC systems proved very valuable. They were always available to respond to questions and concerns and cooperated without hesitation to the needs of the client.

We look forward to the next opportunity to work with Jasmine Construction Management and are pleased to present this letter of recommendation and support for their company.

Sincerely,

Daniel Perez
Principal in Charge, SHW Group, LLP

CC: Adolph Flores, Project Manager
